

Cannot get a mobile signal?

Mobile phone signal strength can be very poor in this area. However, if you need to make a call, you can do so via Filby Playing Field's encrypted Wi-Fi system.

Wi-Fi Calling allows you to use a Wi-Fi network to make and receive phone calls, rather than using a traditional mobile network. It's not just calls that are supported though, you can also send and receive texts.

This has, long, been available from the likes of Facetime, Skype, Viber, Three, O2, EE, Vodafone and more recently WhatsApp'.

Just download the app to your phone.

The wireless keys for both the Village Hall and the Club Room are displayed in those buildings.

You will only need to sign into the routers once. The next time you are in the building, your phone will automatically sign into the appropriate router.
